

IR615

Brand: InHand Networks

Product Code: IR615

Availability: In Stock

Weight: 0.00kg

Dimensions: 127.00mm x 108.20mm x 35.00mm

Call for Price: 1-514-697-2327

Short Description

InHand Networks

InRouter615-S series is ideal for large-scale Internet of Things (IoT) applications including kiosks, vending machines, medical equipment and industrial control systems.

Description

Integrating 3G, 4G LTE, and advanced security, the InRouter615-S series is the next generation of InRouter695cellular router. With embedded hardware watchdog, link detection, auto-recovery and auto-reboot, the InRouter615-Sseries provides reliable communications to unattended sites. Reliable VPN technology secures sensitive data. The InRouter615-S also utilizes remote management tools such as a CLI, a web interface and InHand Device Manager Cloud platform for batch configuration and monitoring.
